

Family Amino acid/polyamine transporter I  
Domain Phenol hydroxylase-like, C-terminal dimerisation domain  
Domain NADP-dependent oxidoreductase domain  
Domain Extracellular membrane protein, CFEM domain  
Domain Cupin 2, conserved barrel  
Domain Beta-lactamase-related  
Family Protein of unknown function DUF3425  
Domain Carboxylesterase, type B  
Domain Alpha/beta hydrolase fold-1  
Domain EthD domain  
Family Major facilitator transporter Str1/Tri12-like  
Domain Amidohydrolase-related  
Domain Alpha/beta hydrolase fold-3  
Domain TauD/TfdA-like domain  
Domain Protein kinase domain  
Domain Alcohol dehydrogenase-like, C-terminal  
Domain Alcohol dehydrogenase-like, N-terminal  
Domain Aminoglycoside phosphotransferase  
Domain Transcription factor domain, fungi  
Domain Zn(2)Cys(6) fungal-type DNA-binding domain  
Family Major facilitator superfamily  
Family Major facilitator, sugar transporter-like  
Family Cytochrome P450 Repeat Ankyrin repeat  
Family Fungal transcription factor  
Domain FAD-binding domain  
Family Short-chain dehydrogenase/reductase SDR  
Domain AMP-dependent synthetase/ligase domain  
Domain Gfo/ldh/MocA-like oxidoreductase, N-terminal  
Family Flavin monooxygenase-like  
Domain HNH nuclease  
Family Purine-cytosine permease  
Domain Gfo/ldh/MocA-like oxidoreductase, C-terminal  
Domain NACHT nucleoside triphosphatase  
Family Kynurenine formamidase/cyclase-like
